

Central Oregon Summer COVID-19 Report

August 2023*

***Note:** COVID-19 Summer Report released monthly during the off 'flu-season' months (i.e. ~June-Sept)

COVID-19 August Surveillance Summary

	7/30-8/5/23 (Week 31)	8/6-8/12/23 (Week 32)	8/13-8/19/23 (Week 33)	8/20-8/26/23 (Week 34)	Cumulative 2022-2023 season*
Total number of COVID-19 tests from reporting labs	449	413	434	398	42,787
Number of positive COVID-19 tests (% +)	56(12.5%)	54(13.1%)	64(14.7%)	49(12.3%)	3,417(8.0%)

*As of MMWR week 34 (8/20-8/26/23); MMWR=Morbidity & Mortality Weekly Report (CDC)

Weekly # of reported COVID-19 tests and proportion of positive tests in Central Oregon, 2022-2023

Note: Reporting for COVID-19 cases has changed with the end of the federal public health emergency. Therefore, reporting individual positive cases of COVID-19 is no longer required in the U.S. The current COVID-19 report uses the NREVSS surveillance system described in the footnote.

Data Source for Central OR lab reporting (graphic above & directly below): National Respiratory & Enteric Virus Surveillance System (NREVSS), a laboratory-based system that monitors temporal & geographic circulation patterns (occurring in a certain time/place) for an array of respiratory viruses. Participating laboratories (including a few in Central OR) report the total # of weekly aggregated tests; aggregated positive tests; along with specimen type/location & week of collection.

Definitions: MMWR=Morbidity & Mortality Weekly Report; MMWR weeks represent the week of the epidemiologic year for which the National Notifiable Diseases Surveillance System disease report is assigned by the reporting local or state health department for purposes of MMWR disease incidence reporting/publishing. From the above, week 39 corresponds to Sept 9th-Oct 1st & week 24 corresponds to June 11th-17th.

Percent of reported COVID-19 tests positive by MMWR week, 2020-2023

Note: For the 2022-23 season, calendar week 39=09/25-10/1/22; MMWR=Morbidity & Mortality Weekly Report (CDC)

Number of ER visits for COVID-19 like illness* by age group and week among Central Oregon (Crook, Deschutes, and Jefferson County) residents

of ER visits by county for COVID-19 like illness

	Week 33	Week 34
Crook County residents	6	15
Deschutes County residents	56	38
Jefferson County residents	6	7

*COVID-19 related illnesses are monitored through the ESSENCE (Oregon) syndromic surveillance database. This report includes visits by Crook, Deschutes, and Jefferson County residents to any ER across the state of Oregon.
Note: *** indicates that data is not shown due to small numbers (counts <=5 not displayed to protect confidentiality)
